

29th Annual Florida Sterling Conference | JUNE 1-4, 2021 Virtual Get Your Ducks in a Row

Lean Six Sigma Yellow Belt CERTIFICATION TRACK

The Lean Six Sigma Yellow Belt course is a foundational learning program designed to provide essential core competencies for managing processes. It is also the first of the three Advanced Yellow Belt courses which are prerequisites to enrolling in the highly acclaimed ets Green Belt Certification program.

The Yellow Belt course will be delivered in six 90-minute sessions during the virtual conference week in which the following concepts and skills will be learned and applied:

- Understand the role of measures in process management and how to determine the most effective ones for your process.
- Learn how to flow chart your process so that the best flow and opportunities for improvement can be easily identified.
- Learn two Lean tools which can be applied immediately to reduce waste in the workplace.
- Learn the most important tools for analyzing data and prioritizing problems in a process.
- Understand process variation and how to quantify it.
- Understand the DMAIC method and how to utilize it effectively.

Note: There are no prerequisites for this course. To achieve Advanced Yellow Belt Certification, Yellow Belt, DMAIC, and Project Management for Six Sigma must be completed within a 12-month period.

Includes manual and access to the ets Resource Library of digital forms.

Photo ID will need to be presented at the beginning of each session.

THE FEE FOR ATTENDING AT CONFERENCE IS \$175 ADDED TO REGISTRATION.

96.7% Participant Satisfaction and 100% Certification Rate

You may attend one or all of the virtual workshops. If you complete all six workshops, Florida Sterling Council will provide you with the Lean Six Sigma Yellow Belt Certification. Please contact the Sterling office for information on additional classes.
